SARS-CoV-2 (COVID-19) Test Result

Date	02-05-2021
Time	21:27:31

Scan the code by your camera to match the result and Press the link

Transaction	ID/Passport #	Patient Name	Age	Gender	Test Date	Result
109956	A14705114	علي عدي عباس	9 Year(s)	Male	02-05-2021	Negative

- A negative result doesn't exclude the possibility of COVID-19, especially in early disease
- Positive result is indicative of active infection with SARS-CoV-19
- A negative result doesn't preclude SARS-CoV-19 infection and should not be used as a sole basis for the treatment or other patient management decision, so negative result
- must be combined with patient history, and clinical suspicion
- Optimum specimen type and timing for peak viral load during infection has not been determined
- False negative result may occur if the specimen improperly collected, inadequate number of organism or amplification inhibitors are present in the specimen
- The above result for SARS-CoV-2 was done by Real Time PCR Technology
- The lab is not responsible for flights cancellation
